

REFERENCE MODEL COHERENT & CONNECTED OPEN SCIENCE INFRASTRUCTURE LANDSCAPE

WHY A REFERENCE MODEL?

Basis for working together	Support development	Tool for impact analysis
- A common language - Identify areas of collaboration - Reuse solution patterns - Who works on what?	- Mapping of existing state - Identify gaps and opportunities - Steering towards goal state	- Exposure to risks - Consequences of decision - Uncover dependencies

PROPOSED FOCUS FOR 2026

GORC model as starting point:

July – December: focus on the blue parts – developing a reference model for technical aspects

November: focus on developing models for organisational aspects

PROPOSED CONTENT OF THE REFERENCE MODEL

Values & principles	Landscape overview	Shared terminology	Interoperability framework
---------------------	--------------------	--------------------	----------------------------

PROPOSED APPROACH TO DEVELOP THE REFERENCE MODEL
